REPORT ON PHYSIOLOGY EXHIBITION 2023

The Physiology Exhibition was organized by the Department of Physiology and Biochemistry on 26 July 2023, between 10 am to 1 pm in the college campus under the Guidance of Dr. Parameshwari A. N. and Dr. Bhagyashree H. The mission behind conducting this exhibition is to provide a platform for the first year BHMS students, to demonstrate and explain their model and the Objective of this physiology exhibition was student-centred learning methods are needed for a better understanding of the subject. Preparation of working models by students in Physiology is expected to provide better understanding of the subject since they learn by doing these themselves. The present physiology exhibition was designed to understand the effectiveness of a working model making activity for first-year undergraduate medical students.

There were a total of 09 working projects on display during the event. The students demonstrated the working of their projects using working models and charts to the visitors. Dr. Indrajeet P. Shah, Principal, SVHMCH, Dr Suresh Nair, Dean of SVHMCH, and Dr. Srinivas K. HOD of Dept of FMT visited the exhibition and encouraged the students by interacting with the students. The students from other college like Rajarajshewari Ayurvedic Medical College and Hospital, Humnabad and Government PU College, Humanabd were visited the exhibition and interacted with the students. This exhibition succeeded in giving an overview of working models applications in various domains with a special attention to some of the respiratory, cardiac and renal system. The event motivated the all the students to take up the project work seriously and more enthusiastically.

All the faculty members of all departments were present during the exhibition and provided guidance to the students for the successful execution of this program. We are thankful to our management for giving us the opportunity to conduct a Physiology exhibition.
